

Clair AI Front Office

AI receptionist + lead capture + instant call summaries for businesses that cannot afford to miss calls.

What Clair does

Clair answers phone calls, calls website visitors back, captures lead details, flags urgency, records/transcribes calls, and sends a plain-English summary with the recommended next action.

Best for

Law offices, moving companies, trades, real estate/property managers, clinics, consultants, and small public companies that need consistent front-office coverage.

Starter package - CAD \$299/month

AI receptionist, website callback button, call summaries, email/Telegram alerts, basic prompt customization, multilingual support.

Business package - CAD \$799/month

Everything in Starter plus custom intake questions, lead/contact dashboard, weekly report, and follow-up draft support.

Custom package - CAD \$1,500+/month

Specialist AI agents for documents, quotes, reports, social content, public-company-safe updates, videos, and integrations.

Setup process

1. Collect business details and call rules.
2. Configure Clair.
3. Add callback button to website.
4. Test 3-5 calls.
5. Tune after the first week of real calls.

Approval-first policy

Sensitive client emails, legal/public-company communications, and outbound outreach remain human-approved. Clair identifies herself clearly and only captures information needed for follow-up.
